Product designer with **5+ years of experience** designing 0→1 and scaling B2B/B2C products across web and mobile. Expertise in interaction design, design systems, and AI-enabled experiences across fintech, developer tools, and SaaS.

WORK EXPERIENCE

Product Designer at [Privado](#)

Sep 2023 - Aug 2025 | Remote

- **Led end-to-end design of core B2B privacy platform** features used by enterprise engineering teams.
- Drove a mobile app scanning feature that generated **\$300k of new revenue** within one quarter from enterprise customers.
- Built and scaled a **design system** covering typography, color, components, and motion tokens, improving product and visual design consistency across web and mobile while reducing **design handoff time by over 30%**.
- Collaborated with engineering and PM across 3 timezones to ship complex **data-heavy interfaces** such as tables, bulk actions, and third-party integrations.
- Contributed to the revamp of the marketing website, including branding, illustrations, and web design.

Product Designer at [Fold](#)

Mar 2023 - Jul 2023 | Bengaluru, India

- Designed core fintech workflows across web and mobile, focusing on transaction clarity, refunds, and tagging systems.
- Built a **scalable color and theming system** that worked consistently across platforms, improving brand and accessibility.
- Created the **investor pitch deck** used in fundraising discussions, translating product strategy into a clear narrative.

Product Designer at [Thursday](#)

Jun 2021 - Mar 2023 | Pune, India

- **Led 0→1 product and brand design** for a platform helping remote teams build culture through structured social events.
- Conducted **25+ user interviews** and market studies to drive product discovery, feature prioritization, and positioning.
- Designed and operationalized a design system that enabled **product launch in under 3 months**.
- Designed and shipped the web application, including interaction design and prototyping with facial detection and early **AI/ML** concepts.
- Designed and launched **6+ marketing websites** that consistently drove user acquisition and organic leads.
- Scaled the platform to **100+ teams, 10,000+ events** hosted, with a **4.8/5 average rating**.
- Won **Product Hunt Product of the Year Award** for 2021

UX Designer at [Thence](#)

Aug 2020 - May 2021 | Remote

- Worked on Angel One, one of India's largest stock trading platforms with over **6M+ monthly active users**.
- Designed high-complexity trading interfaces through iterative prototyping and usability testing, supporting multiple modes (intraday, positional, holding) while maintaining clarity and speed.
- Conducted user research and competitor analysis to identify workflow gaps and inform product direction.
